

Compilation of data about the EU budget and EU expenses for rural development

1. Part

The first part of the compilation describes the 2007 EU budget in general and the 2005 EU funds for rural development in each memberstate (EU25)

2. Part

The second part gives an analysis of the way how each member state spends EU funds for Rural Development. The data is from 2005 and cover only the EU15. Due to a lack of information from official sources, no figures from the EAGGF Guidance could be included in the analysis.

The compilation was prepared as background material for the conference "Nature Conservation and the EU policy for sustainable land management in the new EU Member States" held June 16 – 20, 2007 in Bonn / Germany.
